K-12 Education received the highest number of responses to any one topic reviewed for the 2016 Budget. I **support these recommendations** by the Select Standing Committee on Finance and Government Services:

1. Provide adequate capital funding to school districts for facility improvements/seismic upgrades/additional schools
2. Provide stable, sustainable and adequate funding to enable school districts to fulfill responsibilities to continue to provide access to quality public education, with recognition of the increased costs school districts have incurred.
3. Review the Ministry of Education funding formula for programs and services, as well as administrative staff compensation levels to ensure adequate and competitive compensation.

**Public Education Matters. For budget 2016, we demand action.**
